MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Revisions to Republic of China
National Policy Paper

1. Paragraph 5 requests action by the Director.
2. When the National Policy Paper on the Republic of China was submitted for Agency approval in April of this year, we recommended, and you so advised Mr. Rostow, that we could not approve the paper unless certain changes in the intelligence judgments and policy recommendations were made.
3. The Policy Planning Council staff has now proposed changes in the paper in response to our questions and those advanced by other agencies, and requests telephonic approval of these changes by COB 16 June.
4. There is unanimous agreement among the responsible officers of the DDI and DDP that the changes are acceptable and that they remove our earlier objections to the paper.
5. I therefore recommend that you approve the changes and concur in the paper by signing the attached memorandum to Mr. Rostow.

R. J. SMITH
Acting Deputy Director (Intelligence)
